Wednesday, - - - - September 20, 1882

Carp Culture.

By Capt. Milton P. Peirce, Wenonah, New Jersey.]

The adaptability of carp to artificially constructed ponds in any part of the country, their wonderful hardiness, prodigious fecundity, and astonishing growth, combined with the excellent flavor of their flesh, render them the most desirable acquisition to our food supply which has been developed in modern times. While the food carp will thrive in lakes, large ponds, open streams, and even in salt-water estuaries if not disturbed by predatory fish, it is obviously impracticable for the present to introduce them into such waters, because a large portion of them would fall a prey to predatory fish, and even if they escaped all other enemies they could not be readily secured at all times when wanted. Their culture, then, should be confined to purely artificial ponds prepared expressly for them. At least three ponds are required in order to attain the best results, viz: a breeding pond, a nursery pond, and a stock pond. The breeding pond should be small and shallow; the nursery pond two or three times larger, and portions of it considerably deeper; and the stock pond many times larger than both the others combined, and a small portion of it deeper. An ordinary mill-pond can be utilized for a stock pond, but not as good results secured as in a pond constructed and especially prepared for the business. There are many reasons for this. Perhaps the most important one is that there is sure to be other fish in mill-ponds. Very few of them can be drained dry, which is important, for a little peculiar special preparation of bottom is required. In Europe, large tracts of level land are flowed with water and stocked with carp, say three years, then drained and devoted to agriculture for two years. This alternate culture has been carried on extensively in Germany for a hundred years past and with the most satisfactory results.

With proper preparation, one ton of carp can be raised per acre of area of water, and this without feeding and with but slight attention.

Ponds for carp must have muddy bottoms. If they are not naturally so, a few inches of loamy earth should be introduced. They should be so constructed that all the water can be readily drawn off. They should never be constructed over the bed of a stream unless at or very near the source. *There must be no other fish of any description whatever, not even minnows, in ponds with carp.* Ponds constructed over the beds of streams will be sure to contain other fish which cannot all be driven out. Such ponds are also liable to overflow during storms, and most of the fish thereby lost. Carp ponds require but a small supply of water, barely enough to keep them at a uniform level. They can be supplied by springs, underdrains, or by leading water from streams or ponds through screened trunks or pipes and ditches. If the water becomes quite warm, all the better, as such water will supply more food. Carp are naturally vegetable feeders, but will not refuse worms, larvae and other animal substances. They spawn in spring and summer and attach their eggs to living plants, *myriophyllum* being the best for catching and retaining the spawn, and wild rice the best for food. The various water lilies and grasses, cress, etc., are all valuable.

Satisfactory results must not be expected from ponds constructed in ravines and shaded places. Successful carp culture can be attained with far less trouble and expense than poultry culture, but not without system. After the ponds have been properly prepared and the fish introduced, about all the attention required will be to draw off the waters twice each year, once in early spring and again late in the fall, to expel intruders, assort the fish, etc.

It is surprising how many intelligent people seem to think that all which is required in fish culture is to throw a dam across a ravine, dig a hole in wet ground, or in any rude manner construct a pond so as to secure a small body of water into which they can introduce a few fish. They then expect after a brief interval to reap a perpetual harvest. Such men will to some extent, in their immediate neighborhoods, at first bring carp culture into disrepute, while those who engage in the business systematically will find it a source of permanent pleasure and profit.

The subject is one which at best can only be fairly introduced in an ordinary journalistic article, and I prepare this one with the understanding that the subject shall be continued in future numbers of this journal.

FARM, GARDEN AND HOUSEHOLD.

HOUSEHOLD HINTS.

Celery salt added to the dressing for potato and other salads, gives an agreeable flavor; it is preferred by many cooks to celery extract for soups also.

If dry beans are soaked all night in soft water, they will be found to be much more tender than if soaked in hard water; they will require less time for boiling, though they should be boiled in hard water.

Stains of oil paint may be removed with bisulphide of carbon; many by means of spirits of turpentine; if dry and old, with cloroform. For these last, as well as for tar spots, the best way is to cover them with olive oil or butter. When the paint is softened the whole may be removed by treatment, first, with spirits of turpentine and then with benzine.

Many persons are not aware that glass can be cut under water with great ease to almost any shape by simply using a pair of scissors. In order to insure success, the points must be kept quite level in the water while the scissors are applied; and, secondly, to avoid risk, it is better to begin cutting by taking off small pieces at the corners and along the edges, and so reduce the shape gradually to that required. When the operation goes on well the glass breaks away from the scissors in small pieces in a straight line with the blades. The two hints given above, if strictly followed, will always insure success.

Fruit-Tree Culture.

The Canadian Farmer gives the following points in reference to fruit-tree culture.

1. Instead of "trimming up" trees, according to the old fashion, to make them long-legged and long-armed, trim them down so as to make them even, snug and symmetrical.

2. Instead of manuring heavily in a small circle at the foot of the tree, spread the manure, if needed at all, broadcast over the whole surface, especially where the ends of the roots can get it.

3. Instead of spading a small circle about the stem, cultivate the whole surface broadcast.

4. Prefer a well-pulverized, clean surface in an orchard with a moderately rich soil, to heavy manuring and a surface covered with a hard crust and weeds and grass.

4. Remember that it is better to set out ten trees with all the necessary care to make them live and flourish than to set out a hundred trees and have them all die from carelessness.

5. Remember that tobacco is a poison, and will kill insects rapidly if properly applied to them, and is one of the best drugs for freeing fruit trees rapidly of small vermin—and is better used in this way than to make men repulsive and diseased.

Sulphur for Animals.

Sulphur is an excellent alterative and antiseptic medicine for animals, but it requires caution in its use. Its effects are diaphoretic—that is to increase the insensible perspiration. This renders the skin exceedingly sensible to cold and wet, and exposure to these suddenly checks the perspiration, which may cause serious mischief. When sulphur is given it is therefore required to keep the animal dry and warm, or at least to avoid a sudden change of temperature. This medecine should be given in moderate doses—such as one drachm for a calf or sheep, and one ounce for a cow or horse daily, or every two days for several days. The insensible perspiration carries off much unhealthful matter through the skin. Hyposulphite of soda is a much more desirable medecine than sulphur, and is used in one ounce doses, repeated for several days in those cases in which there are purulent secretions and blood poisoning.

BRADY, and the two Dorseys and their followers and confederates are to be tried again, probably in October next, and before the same judge whose integrity and courage have beed so signally displayed in this trial. It is by no means probable that the defense can succeed in repeating the tactics which have so far shielded the principals who were engaged in this enormous raid on the public treasury.

SIMMONS LIVER REGULATOR

HOW TO TELL GENUINE SIMMONS LIVER REGULATOR MEDICINE.

Look for Clean neat WHITE WRAPPER with red letter Z embracing the emblems of our trade, Spatula, Mortar and Graduate: also observe the signature of

J. H. ZEILIN & CO.,

the in red ink on the side. TAKE NO OTHER. Beware of those who know nothing of Medical Compounds, who put out the nostrums known to sour, and being analyzed prove worthless and only made to fleece the public, and to pirate on the well earned reputation of Zeilin & Co.'s medicine; these frauds have no reputation to sustain and will cheat you for a few pennies every way they can. Look carefully to the medicine you are induced to take, for much suffering, permanent injury and even death has resulted from improper treatment and from taking unskilfully prepared medicine.

CASSVILLE, Ark., July 8, 1879.

Dear Sirs—I send you another package of the counterfeit; it is called a trial package. It says it costs you nothing, but it like to have cost me my life. Yours, etc.,

JOHN GRIFFIN.

TUTT'S PILLS

A DISORDERED LIVER IS THE BANE

of the present generation. It is for the Cure of this disease and its attendants, SICK-HEADACHE, BILIOUSNESS, DYSPEPSIA, CONSTIPATION, PILES, etc., that TUTT'S PILLS have gained a world-wide reputation. No Remedy has ever been discovered that acts so gently on the digestive organs, giving them vigor to assimilate food. As a natural result, the Nervous System is Braced, the Muscles are Developed, and the Body Robust.

Chills and Fever.

E. RIVAL, a Planter at Bayou Sara, La., says: My plantation is in a malarial district. For several years I could not make half a crop on account of bilious diseases and chills. I was nearly discouraged when I began the use of TUTT'S PILLS. The result was marvelous: my laborers soon became hearty and robust, and I have had no further trouble.

They relieve the engorged Liver, cleanse the Blood from poisonous humors, and cause the bowels to act naturally, without which no one can feel well.

Try this remedy fairly, and you will gain a healthy Digestion, Vigorous Body, Pure Blood, Strong Nerves, and a Sound Liver. Price, 25 Cents. Office, 35 Murray St., N. Y.

TUTT'S HAIR DYE.

GRAY HAIR or WHISKERS changed to a GLOSSY BLACK by a single application of this DYE. It imparts a natural color, and acts instantaneously. Sold by Druggists, or sent by express on receipt of One Dollar.

Office, 35 Murray Street, New York.

(Dr. TUTT'S MANUAL of Valuable Information and Useful Receipts will be mailed FREE on application.)

HOLME'S LINIMENT OR, THE MOTHER'S FRIEND!

One of the greatest comforts to those expecting to be confined is a remedy upon which implicit confidence can be placed—one that will produce a safe and quick delivery—one that will control pain and shorten the duration of labor. Such is "THE MOTHER'S FRIEND." Try it and see what

A Blessing it is to Suffering Females.

This Liniment when used two or three weeks before confinement, produces a wonderful effect, causing a very easy and quick labor, with comparatively little pain, and leaves the mother in a condition to recover quickly—or in other words to have a good getting up. Under its use, labor will ordinarily occupy much less than the usual time, and the suffering be diminished beyond expression. The condition for which this remedy is offered is of such a character as to forbid a long array of certificates. Those interested in its use are respectfully referred to the hundreds who have used it.

READ THE TESTIMONALS:

I most earnestly entreat every female expecting to be confined to use the "THE MOTHER'S FRIEND." Coupled with this entreaty, I will add that during a large obstetrical practice (forty-four years), I have never known it to fail to produce a safe and quick delivery.

H. J. HOLMES, M. D., Atlanta, Ga.

A lady from one of the counties of Middle Georgia, who has been acting as midwife for many years, writes: "I have disposed of all THE MOTHER'S FRIEND you sent me, and I am DELIGHTED WITH IT. In every instance where it has been used its effects have been all that I could ask. I CONSIDER IT A GREAT BLESSING."

A gentleman writes: "My wife used your MOTHER'S FRIEND at her fourth confinement, and her testimony is that she passed through it with one-half of the suffering of either of her former confinements, and recovered from it in much less time. She also recommended it to a lady friend who was about to be confined for the first time, and she says: 'I HAVE NEVER SEEN ANY ONE PASS THROUGH THE GREAT TRIAL WITH SO MUCH EASE AND SO LITTLE SUFFERING.'"

The names of all these, and many others, can be had by calling at my office.

Having had the foregoing remedy THOROUGHLY TESTED in Atlanta and vicinity, I now offer it to my patrons as possessing superior merits.

I am permitted also to refer to the following well-known citizens of Atlanta: C. S. Newton, Wm. M. Crumley, Jr., W. A. Gregg and D. Bain: all of whom are ready to testify to the merits of the preparation. Price $1.50 per bottle.

Prepared by J. BRADFIELD, Sole Prop'r, Atlanta, Georgia.

For sale everywhere.

By Byron Lemly, Jackson, Miss.

THE LIVER AND ITS FUNCTIONS.

It has become a well established fact that the larger portion of diseases to which the human family is subject arise in the first place from some derangement of the Liver. This organ is not only the largest, but at the same time one of the most important. The venous blood, on its return to the heart, passes through this organ, and in its passage the impurities, as also the secretions which are necessary for digestion as well as for a cathartic to assist in the renewal of waste material &c. are eliminated. From this it is easily seen that the Liver is liable to get out of order to a greater or less extent, and when this occurs it is impossible for it to properly fulfil its office of removing all objectionable matter from the blood, but allows it to pass through, carrying with it the poisons of which it should have been relieved. With impure blood the whole system becomes affected, and no organ can properly perform its function unless it is supplied with PURE BLOOD to maintain its strength. So the Liver becomes all important, and when one has the feeling of being continually tired, worn out, is constipated, with tendency to Piles, Headache, Sick Stomach, Sallow Complex'n Eruptions of Skin, etc. they may be sure their Liver is out of order, and a remedy is required to assist nat're in relieving itself of all accumulations, and restore it to its original Strength and Vigor. For all the complaints of this kind there is no medicine that equals

DR. B. F. SHERMAN'S PRICKLY ASH BITTERS. The result of years of study, experien'nt medical research and practice of Dr. B. F. SHERMAN, its originator, and its success wherever used is sufficient guaranty for its merit. Drastic Purgatives and that class of remedies can have but one effect — that is by their violent action to derange and weaken the system. Prickly Ash Bitters acts directly on the Liver, Kidneys, Stomach & Bowels, in a mild yet effect'v manner, and is as pleasant to the taste as any cordial, and is as easily taken by children as adults.

PRICKLY ASH BITTERS is a medicine of rare merit, and not an intoxicating beverage, and being purely vegetable in its composite can be used at all times with beneficial results. It is not claimed as a cure-all, but for derangements of the organs mentioned, it is a specific and as a BLOOD PURIFIER ranks above all other preparations. Ask your druggist for it, and give it a fair trial. If he has none on hand, ask that it be ordered for you.

MEYER BROTHERS & CO. SOLE PROPRIETORS, ST. LOUIS AND KANSAS CITY, MO.

Health and Wealth!

DR. E. C. WEST'S NERVE AND BRAIN TREATMENT: a specific for Hysteria, Dizziness, Convulsions, Nervous Headache, Mental Depression, Loss of Memory, Premature Old Age, caused by over-exertion, or over-indulgence, which leads to misery, decay and death. One box will cure recent cases. Each box contains one month's treatment. One dollar a box, or six boxes for five dollars; sent by mail prepaid on receipt of price. We guarantee six boxes to cure any case. With each order received by us for six boxes, accompanied with five dollars, we will send the purchaser our written guarantee to return the money if the treatment does not effect a cure. Guarantees issued only by BYRON LEMLY, Druggist, Jackson, Miss. Orders by mail at regular price.

COMMISSIONER'S SALE.

PURSUANT TO A DECREE RENDERED by the Circuit Court of the United States, for the Southern District of Mississippi, in the cause lately pending therein, wherein Lehman, Abraham & Co., were Complainants, and J. Wolkart and Emma Wolkart, Respondents, I will, on

Saturday, September 30, 1882,

In front of the City Hall, in the City of Jackson, State of Mississippi, within legal hours, sell to the highest bidder, for cash, the following described property, to-wit: That certain tract or parcel of land situate, lying and being in the county of Hancock, State of Mississippi, on the western bank of Bay St. Louis, within the corporate limits of the town of Shieldsboro, and having a front of about two hundred and thirty-five feet on the Bay of St. Louis, by a depth to the upper or northern one hundred and forty feet thereof, extending from said Bay St. Louis to the centre of the first ravine; the adjoining fifty feet in width has a depth of forty arpents extending back from said Bay St. Louis, and the lower or southern forty-five feet thereof has a depth extending back from said Bay St. Louis to the track of the New Orleans and Mobile Rail Road; said land is bounded on the north by a lane or road dividing same from lands of Mrs. Theirny, on the south by lands formerly of S. White, belonging to Mr. Wilkinsen at the date of said deed of trust, on the east by Bay St. Louis, and on the west partly by the track of the New Orleans & Mobile Railroad, partly by lands formerly of A. Provosky, and partly by the line of a ravine.

PLOW WORKS IN FULL BLAST.

JOHN McDONNELL,

aug 30,'82- JACKSON, MISS.

H. Dudley Coleman & B'os'

Friction Geared Cotton Press.

This Press is driven by a belt the same as a gin stand or mill, and the screw and follower are run either up or down with the same motion of the belt, and it is not necessary to slacken the speed of the engine or the line shaft on which is placed the pulley or drum driving the Press to move the screw in an opposite direction. It is so very simple that the least skilled person can readily understand and work it. It can be placed either in the lint room or outside, the framing being complete within itself.

We make three sizes of Coleman's (Simmon's patent) Friction Geared Power Presses, to-wit:

8 *feet by 4 inch, Wrought Iron Screw and 9 foot Packing Box, Price complete* $275 00.

9 *feet by five inch, Wrought Iron Screw and 10 foot Packing Box, Price Complete* 300 00.

10 *feet by 5 inch, Wrought Iron Screw and 11 foot Packing Box, Price Complete* $325 00.

We also make the Friction Geared Press to Pack down: with wrought iron screw 10 feet long by 5 inches in diameter and a 9 foot packing box, price complete, $300.00.

We also manufacture here in New Orleans, COLEMAN'S "SIMPLE SCREW" COTTON PRESS for horse power. Price complete with 8 foot by 4 inch screw, and 9 foot packing box $165.00.

Also, COLEMAN'S "PEDESTAL SCREW" PRESS, requiring no support whatever. Price $180 00.

We make heavy reductions for all cash and sell on time for satisfactory paper bearing interest: but not at cash prices. Parties wishing to buy on time will please name references.

Write for illustrated circulars and address the manufacturers,

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

IT is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair

The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Alcorn University.

THE next Session of ALCORN A. AND M. COLLEGE, will commence WEDNESDAY, SEPTEMBER 13, 1882. The publishing of the Catalogue is delayed, for a short time, as we are making an effort to get instructors who are not merely intellectually qualified, but who are men of known moral worth and large influence, and wish to give their names in the Catalogue. It is admitted by students from every part of this and other States, that they advance in learning at Alcorn, as they have done at no other similar institution of learning, and we intend that this institution shall in this respect improve every year.

H. Dudley Coleman & Bro.

General Agents for

The Gullett Improved Light Draft

"MAGNOLIA" GIN.

The GENUINE "MAGNOLIA" GINS are made only by the GULLET GIN MANUFACTURING COMPANY and sold only by them and their regularly authorized agents throughout the cotton-growing States. It is known as the "PLANTERS' FAVORITE," as they prefer it to all others, and those who have used it will have no other.

Should any one contemplating putting up a new gin not be familiar with these gins, we will take pleasure in sending them such testimonials as will convince the most skeptical that we do not claim too much for them.

PRICES IN NEW ORLEANS.

"Magnolia" Gins, Per Saw $3 50
Feeders, Per Saw 1 00
Condensers, Per Saw 1 00

A full line of all sizes constantly carried in stock here ready for immediate shipment.

$9.00 PER DAY!

The Matrimonial Mutual Relief Association,

LEXINGTON, MISSISSIPPI.

Do you want some showing or a guarantee that you are joining a Company that will build up and have enough members to pay your money at marriage? In presenting this our plan—the only one of the kind—we propose to give our members the best, safest and surest of all plans, and we feel assured that all will agree with us.

WE TAKE ALL THE RISK ON OURSELVES.

WE GUARANTEE TO ALL THAT WE WILL HAVE OVER 600 MEMBERS BEFORE 1ST OF JANUARY, 1883.

We feel confident that we will have 1,000 members by that time.

But should we fail to get as many as we guarantee by said time, then we will refund to each one their advance assessment and annual dues at our expense.

We are determined to reach the number, and a great many more.

The scarcity of mony at this time of year keeps a great many from joining, therefore we have adopted this plan in both our Departments. Applicants will be allowed to draw on the Secretary for the amount of Membership Fee payable to the Agent, out of the Benefit fund accruing to the Applicant or Beneficiary at the maturity of the claim. We have made this important change in our first plan because it will enable the farmer boy and a great many others to join.

Members marrying in less time than 20 days can have their annual dues paid out of their benefit by sending Receipt to the Secretary for that amount of the money with the proof of marriage.

Each member you get lessens your Assessment.

All who want to take out policies on their intended without giving her name, can do so by using the words "My Future Wife," and making out the application payable to the gentleman.

For Supplies and information, address,

JNO. B. WRIGHT, SEC'Y,
sept.6,'82-4w. LEXINGTON, MISS.

BEST AND CHEAPEST!

THE YAZOO VALLEY

Mutual Benefit, Endowment and Hymeneal Association,

UNMARRIED PERSONS.

Chartered Under the Laws of Mississippi, May 16, 1882—Charter Perpetual.

HOME OFFICE, YAZOO CITY, MISS.

OFFICERS:

J. C. PREWETT, President.
T. H. CAMPBELL, Vice-President.
R. G. HUDSON, Secretary and Treasurer.
W. A. HENRY, General Manager.

Two departments, distinct and separate—one for white, the other for colored people.

Active and reliable agents, both white and colored, are wanted throughout the United States and Canada. They must furnish satisfactory references. The most liberal commissions paid. Write for necessary papers to General Manager.

No member can marry in less than six months and have a benefit. Benefits range from $150 to $950 in six months; membership fees from $3.00 to $10.00. Twenty per cent of annual dues is set aside as a reserve fund to aid assessments in paying benefit. Best and Cheapest Marriage Association in existence.

June 7, 1882—4m.

THE CHARTER

Of Incorporation of The Arlington Matrimonial Association, of Jackson, Miss.

SECTION 1. This Association shall be known as "The Arlington Matrimonial Association."

SEC. 2. The object of this Association shall be, to fraternally unite all acceptable unmarried white males and females, and to establish a benefit fund, from which, no the satisfactory proof of the marriage, death or expiration of the endowment period, of any member of this Association, who has complied with all of the by-laws, rules, and regulations of this Association, there shall be paid a certain sum not to exceed the limit of the certificate, to himself or herself, or to any one that he or she may direct, and said sum shall be exempt from execution, and shall under no circumstances be liable to seizure or appropriation by any legal process whatever for any debt or debts of the member, or his or her assignee.

SEC. 3. That H. R. Ware and A. J. Addkison, their successors, associates, and assigns, be and they are hereby created a body politic and corporate, under the name and style of "The Arlington Matrimonial Association," and by that name may sue and be sued, plead and be impleaded in any court of law or equity in his State; said Association may have a corporate seal, and alter or change the same at pleasure, and may make all necessary bylaws, rules and regulations for the government of said Association, and may alter or amend the same at pleasure, provided that the same be not inconsistent with the Constitution and Laws of this State, or of the United States.

SEC. 4. That the private property of the incorporators, real, personal and mixed, shall not be liable for any debts of this Association.

SEC. 5. That said Association may at their discretion purchase and hold real and personal property not to exceed five thousand dollars in value, and shall have power to sell and convey the same at pleasure.

SEC. 6. That said Association shall have power to select such Officers and Agents as may be necessary for the purpose of carrying out the objects of this Association, whose term of office and compensation shall be fixed by said Association.

I find nothing in the foregoing charter violative of the laws or Constitution of the State.

T. C. CATCHINGS, Att'ny General.

H. M. STREET,	VICE-PRESIDENT.	J. G. HAMILTON,	GENERAL AGENT.
JAMES HAYS,	SECRETARY.	WIRT JOHNSTON,	MED. DIRECTOR.

Cheapness, Safety and Permanence are Secured by Our Plan.

CHEAP, because only the best lives are insured, and the assessments are equitably proportioned according to different ages, only called for when needed, and never increase after one joins.

SAFE, because by Special Act of the Legislature the Safety or Mortuary Fund is deposited in the State Treasury at interest, which fund is only to be drawn on to pay death benefits.

PERMANENT, because the Fund so deposited in the State Treasury belongs *solely* to the members, and each member's interest in this fund is continually increasing, and the security of his insurance likewise increases.

Thus, the member is impelled by self-interest to continue his payments, as failure to pay forfeits his interest in the State Treasury deposit to the remaining members.

Other valuable features will be explained by our Agents.

dec.14,'81-1y.

The condition as above indicated, exists in almost every family. With some the troubles are of recent standing, while many have become chronic and difficult to overcome. Old and young females are constant victims. Dr. Dromgoole's English Female Bitters makes positive and unmistakable cures of all lingering female weaknesses, excesses, irregularities and periodical obstructions; imparts strength and vigor to the feeble and emaciated; builds up and re-animates flagging, broken-down and worn-out constitutions; repairs damages inflicted by years of painful suffering; regulates, comforts and consoles the troubled maiden, and is a fast friend to mothers all along the troubled pathway of their married lives. It cures ovarian diseases, uterine displacements and ulcerations, hysterics, leucorrhœa, chlorosis, weakness of the kidneys and back, revives the drooping, despondent and melancholy, calms the excitable and nervous. It is a never-failing free tonic female regulator. $1.00. Sold everywhere. Family Medical Adviser mailed *free* to any address.

J. P. DROMGOOLE & Co., Proprietors, Louisville, Ky.

At the bedside, the physician's first question is, "How are your bowels?" proving that they must in all cases be properly attended to at once, by the use of some medicine that will cleanse the stomach, excite the liver, cause a free flow of bile and carry off these disease-making secretions. Pills, oils and other strong medicines, produce pain, griping, sick stomach, and often cause the loss of time.

Bailey's Saline Aperient is relieved of all these unpleasant effects; it acts mildly upon the bowels, causes a free flow of bile, relieves constipation, biliousness, sick headache, acid stomach, heartburn, colic, indigestion, etc.

It is a white powder, and is as cooling and pleasant as a glass of soda water. Large Bottles 50 cents.
